Companies doing great things with Azure

"We did look at different platforms, including Azure, Google, Amazon, and VMware. If we wanted to put the whole city in the cloud, we needed Azure."

Chris McMasters, Chief Information Officer, City of Corona, CA

Why choose Azure over AWS? >
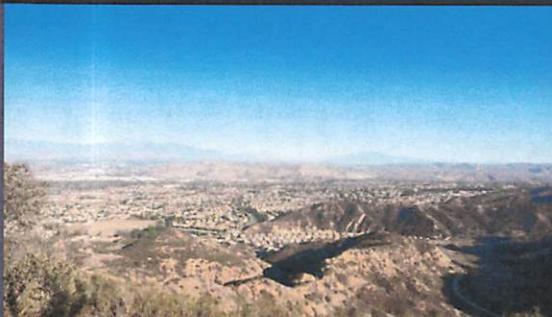

ASOS

Creating better experiences for 15.4 million customers worldwide

ASOS, a top online fashion retailer, delivered a more personalized, mobile-first experience with Azure.

61

Is it only for Windows apps and services?

No. Azure supports open source technologies, so you can use the tools and technologies you prefer. Run virtually any application using your data source, with your operating system, on your device. With Azure, you have choices.

Learn more >

Will Azure really save me money?

With no upfront cost, you only pay for what you use. Azure provides flexible purchasing and pricing options for all your cloud scenarios, such as the Azure Hybrid Benefit, and offers extensive tools to help manage your cloud spend.

Learn more >

Can I try Azure services?

Yes. Create an Azure free account to experiment and build in the cloud. You'll get access to free Azure products and services, plus a $200 credit to use in your first 30 days.

Try Azure free >

Will Azure work for my industry?

Azure provides solutions for all industries, through proven combinations of cloud products and services. Address your industry-specific business challenges today, and prepare for the future by innovating with Azure solutions.

Learn more >

How does Azure compare to other clouds?

Azure is the only consistent hybrid cloud, delivers unparalleled developer productivity, provides comprehensive, multilayered security, including the largest compliance coverage of any cloud provider, and you'll pay less with Azure as Windows Server customers can save up to 50%, and SQL Server customers can save up to 76% compared to the leading cloud provider.
